SYLLABUS

Course title and number  CSCE 629 - 602 Analysis of Algorithms
Term  Fall 2019
Meeting times and location  M/W/F M/W/F 10:20 am-11:10 am @ HRBB 113
Course webpage  https://fangsong.info/teaching/f19_629_alg/
Piazza  https://piazza.com/tamu/fall2019/csce629602

Course Description and Prerequisites

Algorithms are becoming a central technology for solving problems from a variety of fields. This course will cover the core techniques for designing and analyzing efficient algorithms. The focus will be on the key mathematical ideas and methods, as opposed to implementations.

Prerequisite: CSCE 411 or equivalent.

Instructor Information

Name  Fang Song
Email address  fang.song@tamu.edu Start subject line with "f19-629". Use Piazza for quick response.
Office hours  M 1 - 3 pm and by appointment
Office location  HRBB 427B

Teaching Assistant

Abhishek Das. abkds@tamu.edu. Office hours & location: Th 1 - 3 pm @ HRBB 526

Textbook and/or Resource Material

Other suggested texts:

Grading Policies

Homework: 40%. Weekly assignments.
Mid-term exam: 25%.
Final Exam: 30%
Participation: 5%.

Grading Scale: A = 90-100  B = 80-89  C = 70-79  D = 60-69  F = <60

Homework policy:
- No late homework is accepted.
- Collaboration on homework problems is highly encouraged, but you must write up solutions entirely on your own and clearly list who you worked with for each problem and any other source you have used other than the text (a person, a book, a research paper, a webpage, etc.).
- All assignment submissions must be type-set using LaTeX and submitted in PDF format. A
tutorial and learning materials on LaTeX will be given.

- “I'll take 15%” option. You should be as clear and concise as possible when writing up your solutions. Partial credit will only be given for answers that make significant progress towards correct solutions. If you realize you cannot solve a problem, you may write “I'll take 15%” instead of your answer, so you get 15% for this problem (or part of the problem). But if you do write an answer, you will get 0 if your solution is completely wrong. There will be optional problems sometimes with bonus credit, and the “I'll take 15%” option does not apply.
- For each assignment, a subset of problems (randomly chosen and not known to you in advance) will be graded.

### Course Topics, Calendar of Activities, Major Assignment Dates

<table>
<thead>
<tr>
<th>Week</th>
<th>Topic</th>
<th>Main Reading</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 – 3</td>
<td>Review. Asymptotic notations, recurrences, merge sort, divide-and-conquer, elementary graph algorithms.</td>
<td>CLRS 1 – 4, 22</td>
</tr>
<tr>
<td>4 – 6</td>
<td>Dynamic programming. Take-home Mid-term in Week 7 covering materials from week 1 – 6.</td>
<td>CLRS 15, KT 6</td>
</tr>
<tr>
<td>7</td>
<td>Greedy algorithms</td>
<td>CLRS 16</td>
</tr>
<tr>
<td>8 - 10</td>
<td>Advanced graph algorithms. Shortest paths, network flow.</td>
<td>CLRS 24 – 26</td>
</tr>
<tr>
<td>11</td>
<td>Algorithms for algebra and number theory.</td>
<td>CLRS 28, 31</td>
</tr>
<tr>
<td>12 - 13</td>
<td>NP, NPC, approximation algorithms.</td>
<td>CLRS 34 – 35</td>
</tr>
<tr>
<td>14 – 15</td>
<td>Selected topics: randomized algorithms, convex optimization, quantum algorithms.</td>
<td>CLRS 5, 29, DPV 10</td>
</tr>
<tr>
<td>16</td>
<td>Final exam on Dec. 10, 8 – 10 am.</td>
<td></td>
</tr>

### Americans with Disabilities Act (ADA)

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please contact Disability Services, currently located in the Disability Services building at the Student Services at White Creek complex on west campus or call 979-845-1637. For additional information, visit [http://disability.tamu.edu](http://disability.tamu.edu).

### Academic Integrity

For additional information please visit: [http://aggiehonor.tamu.edu](http://aggiehonor.tamu.edu)

“An Aggie does not lie, cheat, or steal, or tolerate those who do.”
